RE: Merida Girls Home

Dear Ramon:

I am writing to inform you of a change with respect to the funds previously held by YPM for window replacement and renovation at the Girls Home. It is my request that you communicate this change to the people that are responsible for that property and its future use.

As you recall, funds had been contributed to YPM for the renovation and replacement of the windows at the Girls Home. The Girls Home has not been utilized for that mission in over two years, and there is no prospect for that to change in the near future. For that reason, the donor of the funds previously earmarked for the Girls Home project has requested that the funds be redirected to another use. YPM, of course, will comply with that request. Therefore, would you please communicate to the persons responsible for the Girls Home that YPM no longer holds any money earmarked for that property or that mission. The funds previously held for that purpose have been redirected at the donor's request to other purposes.

If and when in the future the Girls Home is re-established and operating with suitable supervision and accountability, YPM would be very interested in supporting that mission, both financially and otherwise. Thank you for directing this information to the appropriate persons.

Yours truly,  
YPM Board of Directors

Richard B. Learman, Director
